Footnotes explained

1 = PreX (pre-existing waiting period) is defined as a condition for which medical advice was given or treatment was recommended by or received from a doctor, or other health care provider acting within the scope of his or her license, within three months before the effective date of coverage. For this condition a company cannot exclude benefits for more than three months following the coverage effective date. No waiting period will be applied for policies being replaced if the previous policy had been in effect for at least three months.

2 = These companies have discounts for spouse, electronic funds transfer and/or annual pay. You may call the phone numbers given to find out exactly what your discounts may be.

*Individuals enrolled in the Medicare Select plan use approved providers.
